EDUCATION //   VMBO-T - Graduated in 2010
                      Multimediadesign at SintLucas (Boxtel) - graduated in June 2014

MY QUALITIES //   My name is Valerie and I'm a 23 year old motivated freelancer who's not afraid to work hard. I succesfully graduated as a multimedia designer at SintLucas in 2014. I'm familiar with, and I control Adobe Photoshop, InDesign, Ilustrator, Premiere, Dreamweaver, all of the Microsoft Office applications, HTML + CSS, Wordpress, MailChimp, E-Mark, Magento and SEOshop.

My biggest passion is to design clean and clear experiences for users. Not only while doing projects which contain stationery branding, brochures, posters and flyers but also for the internet. My goal is to deliver the whole package, including print design, webdesign, HTML5 / CSS, Wordpress and also photography.

Currently I'm freelancing for several clients in and outside the Netherlands. I've finished a 6 month internship at Studio Bries in Den Bosch (NL) and a 6 month at internship Blue Baboon Design based in Richmond, UK.

Another company I've worked for is SuperTrash, based in Amsterdam. I've worked closely together with the art director as a creative designer, mostly for web design, the newsletters and the ST. Magazine.

I've also worked as a sales assistand at Rituals Cosmetics, The Bodyshop, V&D, two restaurants and I did a lot of promotion work for KnapWerk, Opvallers and New World Promotions.

My last job was being at a webshop called Smartphonehoesjes.nl. I was the main digital & print designer and social media content photographer here so I've learned (mostly mystelf) a lot while working at this company for 1.5 year.

MY INTERESTS //   I'm interested in communication, concepting, storytelling, print design, web design, brand strategy, marketing, social media and photography
